RIESLING

2005

This unique vineyard selection is crafted in small quantities of premium Riesling grapes to ensure the wine exhibits all the best attributes of the finest Eden Valley Riesling. We aim for a wine of youthful gold-green colour, displaying delicate fragrant and floral citrus blossom, talc and lime zest aromas, with hints of rose petal. We want intense fruit on the palate with fine acidity. Our Rieslings are renowned for finishing long and crisp.

Each year, the Eden Valley is combed by our winemakers to find those members' vineyards where outstanding Riesling crops show exceptional varietal and regional Riesling characteristics. The winemakers look particularly for the steely acidity and pristine varietal attributes which make great Riesling.

The vineyards which contribute the grapes for this wonderful wine include some on ancient soils of low fertility around 500 metres above sea level and others in Eden Valley's lower reaches, around 400 metres, growing on richer loams. Their diversity gives Eden Valley Wines Riesling its unique complexity.
