CACHET WINE

WELCOME TO CACHET WINE

Welcome to our collection. Inside you will discover an array of wines, champagnes and ports from renowned chateaux, houses, domaines and estates with whom we have worked closely for many years. New for this year are exciting wines from the Languedoc including Coquille de Terre, Vieilles Vignes Carignan and Mineralium Chenin blanc. We have also gone behind the scenes to reveal the passion, personalities and stories which make our great producers unique.

Being part of a long established wine merchant with over 100 years of history means we strive continuously to deal with individual growers who are committed to producing top quality wines which are bottled at source. Our "grape to glass" philosophy is an uncompromising ethos of which we are very proud. It is fundamental to our business values and the core of our existence!

Based in Yorkshire, Cachet Wine is an independent family run agency company operating from our own modern purpose built bonded warehouse. We have a dedicated logistics team serving a wide ranging portfolio of independent customers. Our team have many years' experience in the wine industry and they offer a professional, knowledgeable and friendly service. We specialise in supplying independent wholesalers, retailers and brewers on a duty-paid, in-bond or ex-cellar basis.

Working in partnership with family owned producers ensures we can influence and hand-select many of our wines. This gives us a competitive edge and unique selling point

to the independent trade which means you will not find our wines within the major multiples. Hard work has been recognised by wine critics resulting in many of our wines being award-winning.

All of this is the backbone which enables us to offer great deals on all our products.

We hope you will enjoy these pages... thank you for your continued support; we look forward to working with you not only over the next year but for many years ahead.

WHY CHOOSE US

Quality is at our core. We are meticulous in our sourcing of wines, working closely with our winemakers and maintaining a strong preference for domaine bottled stock.

We seek to preserve the quality and individualism of our products and for that reason we ensure that our wines are not sold through multiple retailers.

We pride ourselves on delivering exceptional levels of customer service, and always strive to support our customers.

Cheers

THE SUSTAINABILITY OF RELATIONSHIPS

Cachet Wine has developed, and continues to maintain, strong sustainable and ecological credentials throughout all parts of our business. We constantly review our impact on the environment and our relationships with the local community, our people, and our suppliers. We call this 'The Sustainability of Relationships' and we use these fundamental principles across our entire business, not only because it makes sense to care for and maintain our environment for future generations, but also because it makes sense to us as an independent business who are passionate about creating a sustainable future.

THE ENVIRONMENT

Cachet Wine has a continual commitment to the environment across all aspects of our business.

- In December 2022 we installed 500m² of solar panels on our warehouse roof, capable of generating enough power to not only supply the needs of our offices and cellars (our buildings are already incredibly energy efficient) but, more importantly, reducing our carbon footprint by 400 tons annually.
- LED lighting and timed lights are fitted throughout our offices and warehouse.
- We have also moved away from single serve plastic bottles to wine cans, which has in turn removed 200,000 plastic bottles per year from our business.
- We have introduced paperless invoicing and statements across all depots.
- We have a policy of recycling all packaging materials including cardboard wine boxes, glass bottles and cans.
- Our delivery fleet is well maintained and all vehicles have a vehicle tracker installed to ensure that they are driven in a fuel-efficient manner. In addition to this, we have begun the process of moving to electric vehicles for our local deliveries.
- We have a policy of investing in sustainable methods and infrastructure so that our legacy as a business has an ever-decreasing environmental footprint.
- Within our supplier base, we have always sought out and championed growers and domaines who grow and make wine in an environmentally sustainable way. Chemicals are not only harmful to the environment but also cost money, both for the product and also the time and equipment to introduce them into a vineyard and winery. Within our 1,200 strong wine portfolio, over 50% are Organic, Biodynamic or farm under 'Lutte Raisonee' principles.

OUR PEOPLE

As a successful independent business founded in 1984, Cachet Wine continues to foster and maintain positive relationships with every person within the business, whether that is our colleagues, suppliers, or customers.

- We offer a flexible and family friendly approach to work/life balance, a fact reflected in the longevity of our colleagues within the business who have an average of 10.2 years working at Cachet Wine.
- WSET & Staff Improvement courses are available to all colleagues as well as job-specific training.
- Our staff are all entitled to 5 weeks paid holiday.
- We host quarterly staff lunches to ensure continued morale and strong communication between departments.
- We also have two Mental Health First Aiders onsite to safeguard our employee's wellbeing.
- We have a Diversity and Inclusion policy, which we are committed to and review regularly.

THE COMMUNITY

Cachet Wine has a strong and proactive relationship with the local community, supporting a wide range of activities and causes annually.

- We offer regular financial support to Dove House, a hospice local to Cachet Wine through donations and fund-raising.
- We also offer our staff two days of paid annual leave to volunteer for local charitable causes within our community. Examples of this are working with elderly patients in care, volunteering in local charity shops, working with the Commonwealth War Graves, charity bike rides etc.

OUR PRODUCT

Cachet Wine sources 100% of all products directly, with no 3rd party intervention and as such we understand and can trace the provenance of the vast majority of our products. 'Grape to Glass' is not a phrase we use lightly. We promote honesty, integrity and sustainability throughout our buying process, encouraging all our suppliers to adopt our principles of building a wine business for future generations.

- Our portfolio of wine domaines points to the Sustainability of Relationships, with family domaines dominating our supplier base and working relationships that have lasted for many decades, with the likes of Sichel, Audy, Domaine du Vieux Télégraphe, Rioja Vega, Plaimont, LGI, Pocas and Taylor Fladgate.
- As a wine business we focus on the product and the family, building relationships based on trust, honesty, integrity and quality. We have a large number of wine domaines practicing Organic and/or Biodynamic and farming sustainably under Lutte Raisonnee principles.
- We have a progressive policy of reducing glass weight in our wine bottles from 600g to 400g, in addition to our unique policy of only bottling wine at source. Whilst marginally more expensive, this policy of bottling in the country of origin means that the quality of the wine is guaranteed, involves less handling and manipulation and is totally traceable.
- Our Buying team works very hard to ensure that stock is ordered in quantities which makes transportation journeys more efficient and environmentally friendly.

Gardet was established in 1895 by Charles Gardet in Chigny-Les-Roses, in the heart of the Montagne de Reims. It was sold to the Prieux family in 2007. The Prieux have invested in the business, but wisely retained the features of the style of wine made over the years, only slightly refining it to be a little more forward-drinking with more fruit freshness and balance. The house owns around 7 ha of premier cru vineyards around their home villages of Chigny-Les-Roses, Ludes and Rilly la Montagne. The long tirage time and the use of a high proportion of reserve wine has marked the house style, and in fact is a distinguishing feature of Champagne Gardet.

BIG BELTIE | LANGUEDOC | FRANCE

Fred was born in the small village of Limoux, situated amongst the Languedoc vineyards. His father and both his grandfathers were vine growers, and he grew up immersed in the vineyards, assisting his father from a young age. The cultivation of vines has always captivated him, as he believes that the finest wines are crafted in the vineyard.

The Belted Galloway is without doubt one of the finest cattle breeds. To ensure winter warmth, the Beltie has a double coat of hair rather than the layer of backfat most other breeds require. Their meat is therefore lean and succulent.

DOMAINE PIERRE CROS | MINERVOIS | FRANCE

Domaine Pierre Cros is based in Badens, situated in the Minervois, surrounded by the Canal du Midi to the South and the Montagne Noire to the North. It is here in the intense heat of the southern sun that little else grows except vines and olive trees. And it is here that Pierre Cros, an ex Rugby player, cultivates his 20 hectares of vines including the classic Southern French varieties of Grenache, Carignan and Syrah. However, he is something of a maverick and a thorn in the side of the AOC authorities, as most unusually, he grows the non-permitted grape varieties of Nebbiolo (Italy), Touriga Nacional (Portugal) and Pinot Noir (Burgundy). Low yields and vines dating from 1905 contribute to the production of some extremely fascinating and popular wines which are deep and structured and very enjoyable.

With a combination of local grape varieties, knowledge and rigorous hard work, the members of Plaimont have succeeded in producing extremely high quality wines from the terroirs of Madiran, Pacherenc du Vic-Bilh, Saint Mont and Côtes de Gascogne.

Light opulence is achieved by extracting one part of the juice with aid of an Inertis press. No oak aging is used in order to produce a wine of pure fruit.

DOMAINE SYLVAIN BAILLY SANCERRE | FRANCE

Dynamic Jacques Bailly, heir to a winemaking tradition dating back to the 1700s, and wife Marie-Hélène, cultivate an array of coveted vineyards around Bué in the heart of the eastern Loire appellation of Sancerre. In 2007 they were joined by their daughter Sonia, ensuring the continuity of this superb domaine. The style is fresh and grapey with a steely edge and a fine minerality. CHÂTEAU PRINCE | LOIRE VALLEY | FRANCE

Château Princé, certified organic since 2015 by Ecocert, is a benchmark of the AOC Coteaux De L'Aubance, Anjou Villages Brissac and Anjou Blanc. Régis Vincenot's first acquisition in 2002, this estate is located at the gates of the Angers capital, in the town of Saint-Melaine-sur-Aubance. The property's vines form an exceptional islet on a shale hill overlooking the Aubance River. The top of the hill presents soils where slate dominates. These "hot" lands are planted in chenin to create dry or sweet white wines with a strong personality. Cabernet Franc, a more water-hungry grape, is planted on the slopes allowing optimal maturity for the production of dense and deep reds.

ANJOU VILLAGES BRISSAC ROUGE

The nose is redolent of baked black fruits, soft and lush tannins from the extra years ageing. Notes of menthol, herbs and some coffee present, but the over-riding impression is of ripe black fruit, a touch of jamminess and lovely minerality.

CHÂTEAU DE PARNAY | LOIRE VALLEY | FRANCE

Mathias Levron and Régis Vincenot took over Château De Parnay in December 2006. As soon as they moved in, they were able to make use of the experience gained at Château Princé, putting in substantial work both at the vineyard level (increase of the leaf area, trellising, control of yields, etc.) and at the winery level. They wanted to restore Château de Parnay to its former glory, inspired by their illustrious predecessor: Antoine Cristal. The property — located in the Saumur Champigny wine appellation — now covers 35 hectares. The vineyard consists of four plots of land, all located on exceptional clay-limestone soil. The first three plots are located in an area commonly known as la côte, an area straddling the communes of Parnay and Souzay-Champigny. This terroir takes its nickname from the closeness of the Loire (about 200 meters) which it overlooks from the top of its white stone cliff. The fourth plot is located on the heights of Dampierre-sur-Loire, in an area known for its early ripening: the Butte de la Folie. This terroir, made exceptional by its exposure, offers an impressive view of the vineyards and the Loire.

DOMAINE DU VIEUX TÉLÉGRAPHE | CHÂTEAUNEUF-DU-PAPE & DOMAINES BRUNIER | VENTOUX | FRANCE

The Brunier family have developed a wonderful portfolio of magnificent domaines including Domaine du Vieux Télégraphe one of the great estates of Châteauneuf-du-Pape. The Domaine has about 45 hectares of vines planted, with an average age of around 55 years. Blessed with one of the finest locations in the area, the particularly hot microclimate is such that the Brunier Family, owners of this domaine for almost a century, are able to harvest as much as a week ahead of their neighbours. When the Brunier family purchased the domaine back in 1998 this great property had fallen on hard times. Years of painstaking work in the vineyards followed. Terraces were built and reinforced, allowing for better water retention. A new winery was built to receive the harvested parcels individually in gravity-fed tanks. Finally, as the Bruniers began to fully understand the vineyards at Pallières, the many lieux-dits, once blended into one cuvée of Gigondas, were separated into two, starting with the 2007 vintage.

Established in 1931, the Caves de Vignerons de Buxy is based in the Côte Chalonnaise, 46km south of Beaune. Strict viticultural guidelines are followed with a programme of continual vineyard assessments. It is very rare that one can equate Burgundy with affordability as well as quality; however this top Cave Co-operative can certainly lay this claim.

DOMAINE MACHARD DE GRAMONT | NUITS-ST-GEORGES | BURGUNDY | FRANCE

This 20 hectare family estate is managed by Arnaud Machard de Gramont and his two sons Alban and Alexis. The cellars are located in Prissey, a neighbouring hamlet of Nuits-St-Georges. These cellars were built in the XIXth century. Their superb vaults give a "cathedral" effect to the winery. The 20 hectares of vineyards cover an impressive range of appellations spanning 50 kilometres, from Chenôve (south of Dijon) to Puligny-Montrachet of Beaune. This domaine is a great source of Burgundy at sensible prices. "Value for money" is not something that is often associated with the wines of the Côte d'Or, however, we have dealt with this family domaine for many years for our commercial Burgundy needs – it offers more individuality than most négociants and consistently performs well.

DOMAINE PARDON | BEAUJOLAIS | FRANCE

The passion for wine and the vine have been associated with the Pardon family since 1820, when Antoine Joseph Pardon, a wine-grower at l'Ermitage in the commune of Régnié Durette, was already producing and selling his wines in France and throughout Europe. At the beginning of the last century, in the 1900s, Louis increased sales to restaurants, hotels, and brasseries in Paris (mainly) and also in other French cities. After the First World War, in order to meet his customers growing demands for quality wines from Burgundy and Côtes du Rhône, Louis obtained a licence as a Wine-producer / Merchant, then selected and added a number of wines to his range. This led to substantial expansion for Pardon & Fils in this period. Moreover, in the late '20s his two sons, Antoine and Louis, came to help him. In 1938 he bought up an estate with wine-making facilities and vineyards in Fleurie. Upon his death, his son Antoine took over, his brother leaving the family business for other horizons. In the early '60s, Antoine's youngest son Jean-Jacques came to join him and expanded sales of bottled wine; previously, the whole output had been sold in full, half, and quarter barrels. Then in 1991 Jean-Jacques's eldest son Jean-Marc joined the family business, to handle mainly the sales side. In 1993 it was the turn of his brother Eric, a graduate wine expert, to take charge of the technical side.

ZENI | VERONA | ITALY

Zeni Winery was established in 1870. Gaetano Zeni, referred to as 'Nino' was the real innovator of this family affair, moving production in the 1950s from a small winery in Bardolino to a more spacious site with spectacular view across Lake Garda. Nino's belief that the grape should be vinified separately is continued to this day. He vowed to abandon the mixing of grapes as he wanted to let the grape characteristics shine and to empower the significance of each individual vineyard and their unique terroir. He believed wines with strong and distinct character can only be obtained by the very best grapes and only when they are treated right. He famously said "Wine is not made in the cellar, but in the Vineyards." The estate comprises the 5 Veronese DOC areas over 25 hectares; Bardolino, Lugana, Valpolicella, Soave and Custoza, which extend from the south-eastern shores of Lake Garda to the Hills east of Verona. The Vineyards are situated on fertile and chalky soil of murrain or marl which is chilled and dried out by lake breezes with plenty of warm sunshine to aid ripening.

PURE | VENETO | ITALY

Rather than following the standard route of sourcing from the widely known group of Italian 'bottlers', we have developed a wonderful source of supply from a family owned estate in the area of Caprino Veronese, situated in the foothills of the Italian Alps 10km east of Bardolino. There is a quid pro quo however – we get wonderful estate grown fruit with a hand in the style of wine we want producing, but we don't name the winemaker or the estate. That's a fair deal!

The 140ha estate is located at the foothills of the Alps and in close proximity to Lake Garda, which creates a unique microclimate with great temperature exchange between day and night during the harvest time. The soils and vineyard elevation also play roles in shaping the flavors and aromas of the grapes grown here.

The Pinot Grigio grapes are carefully picked by hand in mid-August, when the grapes are very crisp and have the perfect level of acidity. They are destemmed and very gently pressed in a pneumatic press. Prior to fermentation the juice is chilled to allow a natural separation of the sediment. After racking, selected yeasts are added to initiate the alcoholic fermentation. Fermentation takes place in temperature controlled conditions of 18°C in stainless steel tanks for approximately 10 -15 days and then post fermentation the wine is left on its fine lees.

BODEGAS CLUNIA | CASTILLA Y LEON | SPAIN

The Clunia vineyards are located in the province of Burgos, Castilla y León at an altitude of between 900 and 1,100 metres above the sea level. Historically they have grown two grape varieties; three hectares of Syrah, and 10 hectares of Tempranillo, however, they have now added Malbec to their repertoire. The organic composition of this land is very poor, these are limestone, clay and sandy soils with pebbles and limestone loames which allow for an optimal drainage, thus limiting production considerably –between 3,000 and 4,000Kg/hectare. The singular character of this terroir results in wines with a unique personality, only changing slightly according to the subtle variations determined by the soil of each vineyard.

SOLOMNISHVILI | KAKHETI | GEORGIA

Georgia is the cradle of wine, arguably the greatest viticultural region of the world, and following our Buying Trip to Georgia last year, we are delighted to bring you these superlative wines from one of Georgia's finest winemakers, Giorgi Solomnishvili. His winery is situated in Telavi in the Kakheti wine region, where he produces outstanding small batch wines. His production is small, between 20000-25000 bottles per year. His wines are produced from the Saperavi grape, one of the most versatile of noble varieties that can grow in both hot and cool conditions, with the ability to produce a huge array of different styles – a teinturier variety that can be described as the 'Malbec of the Caucasus'. A deep thinking family man, philosophy runs not only through Giorgi's veins but also his wines, each one a dedication to someone or something close to his heart. He understands his land, its terroir and the Saperavi like no other, and the results are truly astonishing. He teases and caresses the most astonishing flavours that dance along your tongue in perfect harmony. Drinking his wines creates thought, contemplation and satisfaction. "Wine is the way I choose to communicate with the world, it's the way I express my unconditional love. It's a silent prayer, an unwritten word. It's an unspoken communication" – Giorgi Solomnishvili

AVONDALE | PAARL | SOUTH AFRICA

The picturesque 160-hectare farm that is today known as Avondale has been under cultivation for more than 300 years. Early records show that the land was one of the first in the Paarl Valley to be allocated specifically for the production of wine grapes.

Avondale is now home to the Grieve Family and 25 farm worker families. Johnathan Grieve has developed a holistic approach to wine farming known as Biologic, which combines biodynamic and organic principles with modern science, and constantly asking the question; "Would Mother Nature approve?" "Terre Est Vita" is his ethos, which means 'soil is life'. Simple methods are used, such as using a posse of ducks to eat the snails that target the vines – AKA Snail Assassins! Wasps are released to prey on the mealy bug. Chemicals and fertilizers are shunned and cover crops are grown to restore the nitrogen levels in the soil. Quirky? Yes – Great wines? Undoubtedly!

At that time, it was planted with 60 hectares of vines dating back from the beginning of the 20th century, consisting mainly of Cabernet Sauvignon, Malbec, Carmenere and Merlot. In the early Nineties, Luis Felipe Sr. decided to make wine under his own name and so built a modern winery equipped with the latest state of the art technology. The first vintage, Luis Felipe Edwards Cabernet Sauvignon 1994, was launched on the international market in late 1995 and is still drinking well to this day, a testament to the level of quality of LFE wines since day one.

SANTA ROSA | MENDOZA | ARGENTINA

Santa Rosa is the original wine estate established by Zuccardi, an hour's drive south east of Mendoza in Argentina. There is a progressive move to organic farming with 50% of the 500ha estate now converted. Such are the desert conditions, evaporation is strong and without irrigation the vines would die very quickly. There is a large difference in temperature between night and day which ensures the grapes maintain a wonderful freshness.

The grapes are harvested by hand, gently pressed and then fermented in stainless steel tanks at 16-18°C. There is a short 4-6 hour maceration resulting in a very pretty Provencal salmon pink colour, a welcome relief from the heavier South American roses on the market.

Together they are dedicated to producing wines of unquestionable superior quality, expressing the quality and character of their very old Malbec and Cabernet vineyards in Luján de Cuyo, Mendoza, Argentina. They choose the best lots from their vineyards, and pay rigorous attention to every detail of the artisan winemaking process: from selecting parcels and picking grapes to fermentation in small tanks and aging wines in the finest French oak. LONGBOARD | CALIFORNIA

Longboard was born from the passion of Oded Shakked, surfer first, winemaker later, who brings a unique perspective to winemaking, or rather winegrowing as he prefers to call it. Longboard believes that great tasting wines are those that are true to the people and place that grew them. Thus, they extend the notion of "terroir" to include the human aspect, not just the soils, climate and weather.
