## Specification

### Vinification

Fruit is sourced predominantly from the Wairau Valley, Marlborough's largest and most established sub-region, renowned for producing vibrant expressions of Sauvignon Blanc. The valley's broad river plains feature free-draining alluvial soils of gravel, sand and silt, deposited over time by the Wairau River. The 2025 growing season provided ideal conditions for Sauvignon Blanc, with a warm, dry spring, a cooler January to preserve acidity and aromatics, and late-summer warmth allowing extended hang-time. Harvested mid-March in the cool of the morning, the fruit was clean, balanced, and disease-free. Yields were carefully managed and fermentation took place in stainless steel to maintain freshness and bright varietal character.
